# Quick Guide Getting Starter

## 1- Place the battery and check the correct functioning of TiFiz

- ① Place the CR123\* battery in the case  
Please respect carefully  
the indicated position

- ③ Tightly close the case back

②

The lights flash  
The insertion of the battery,  
flashes the green and red LEDs.  
If they are not flashing,  
ensure the correct position  
of the battery and try again

④

Replace the case back.  
**Making it waterproof**  
by firmly screwing  
the 4 screws\*  
of equal manner

\* Use the screwdriver, the 4 screws and the CR123A battery provided with your TiFiz

## 2- Create your personal account on [www.mytifiz.com](http://www.mytifiz.com)

- Open the webpage [www.mytifiz.com](http://www.mytifiz.com) in your internet Browser
- Register your account with an email address and a personal password

## 3- Add and name your GPS Tracker

Declare your New TiFiz GPS Tracker on your personal web account [Fig.1] :

1. Select the item « My TiFiz » in the left menu,
2. Press on top-right «Add a New TiFiz» : a window is opening
3. Enter the Tracker ID graved on the back cover of the TiFiz tracker.

**Fig. 1** Add a New GPS Tracker TiFiz

## 4- Test your TiFiz Tracker's connectivity to the SIGFOX™ Network

- Log in to your personal TiFiz web account from [www.mytifiz.com](http://www.mytifiz.com)
- Stand outside where there are some good GPS network conditions
- To carry out the connection test, send an **alert SMS** using your own mobile number

### Moving forward step by step :

1. Click on the icon « Settings » in the Tracker's menu : a window opens
2. Click on the icon « Edit » and enter your own mobile number in the place of « Recipient » (*you will change it later*)
3. Personalize the text message as indicated
4. Check the Option « Include a GPS URL in the message »
5. Save your Settings
6. Take your TiFiz Tracker, Press and hold long the TiFiz button (#5sec)
7. Check your inbox SMS

- If you didn't receive yet the alert SMS in the 60mn :

Check the phone number you entered in the "settings" of your Tracker (previous chapter).

- If you receive the alert SMS :

You may change the phone number of your favorite recipient, the one who will receive the alert SMS (previous chapter).

Check the Tracker geolocation by clicking on the URL sent by the SMS.

### Note

If you didn't receive the alert SMS or if the Tracker geolocation is not correct,

Move to another location, and repeat this procedure until you succeed,.

If the problem continues, please, contact the Customer Support Service (CSS)

(CSS) [support@ticatag.com](mailto:support@ticatag.com)

## Terms & Conditions of Use

TICATAG, concerned about the confidentiality of personal data collected from its subscribers, certifies that its company have declared to the CNIL its geolocation system TIFIZ - [Declaration No. 1836386](#) -

This, in order to avoid other uses than just a statement of positions of the TIFIZ GPS tracker(s), with a view to provide a better tracking service on a period and send the best alerts for the TiFiz owner.

In accordance with the articles 39 and 40 of Law No. 78-17 of 6 Jan. 1978 amended in 2004, referred to as the "Law on Information Technology and Civil Liberties",

Any person may obtain a report and, if needed, modification or removal of his own information, by writing an email to the management of TICATAG [contact@ticatag.com](mailto:contact@ticatag.com)

You also get the right to object, subject to invoke legitimate reason to be submitted to the agreement of the management of TICATAG.
